Subject: Information submitted

As file enclosure, we submit to you information about the events in the village of Ahmici, Vitez Municipality.

This information encompasses operative findings and eyewitness accounts of these events, as well as an on-the-spot review of the site. The information is not complete and the case has not been definitively resolved, because in these areas combat activities continue to take place and it was not possible to obtain written statements from more key eyewitnesses.

Moreover, statements were not obtained from persons of Muslim nationality who, after the events in the village of Ahmici, fled to the Municipality of Zenica, to Travnik and elsewhere. In this respect, adequate collaboration by the opposite side was also lacking for the completion of this case.

After the cessation of combat activities and the creation of more favorable conditions, all necessary measures and actions will be taken in order to shed light upon this case completely.
